Minutes of the WSCRCA Planning Committee Meeting

Tuesday, April 28th, 2020. 7:00 p.m.

ATTENDANCE:

Planning Committee WSCRCA Directors : *L. Nessel, S. Berman*

Regrets: E. Teasdale

Planning Committee Members: *D. Field, D. MacLeod, P. Sinclair*

Regrets: M. Hammerlindl, D. Ho

Guests in Attendance:

Late Arrivals: *7:15 p.m.: D. Field*

Early Departures:

Call to Order and Quorum:

Meeting called to Order by L. Nessel at 7:10 p.m.

Committee members in attendance constituted a quorum (5 of 8 members). L. Nessel acted as Chair.

Approval of Agenda

Agenda was approved as presented.

Approval of Minutes

March 24th, 2020 Planning Committee minutes were approved.

LOC2019-0177 Medicine Hills Land Use Change, Paskapoo Slopes

- WSCRCA PC letter of comments emailed to file manager Brian Smith on April 20th, 2020. See attached.
- PSJAC (Paskapoo Slopes Joint Advisory Comm.) meeting held April 14th, 2020. City Planning members, Trinity rep, B&A rep and PSJAC members in attendance. PSJAC members expressed concerns with proposed addition of discretionary uses.
- Email sent to Councillor J. Davison on April 22nd, 2020, expressing concern with the proposed addition of Class F (Third Party Advertisement) & G (Digital Third Party Advertisement) signs and requesting him to advocate for the East Paskapoo Slopes Park Management Plan. No response to date.
- Application will go to Calgary Planning Commission (CPC) on May 21st, and then, if approved, to a Public Hearing before City Council.

West Calgary Ring Road:

- WSCRCA Planning Committee members WCRR reps: D. Field, E. Teasdale, and D. Ho.
- Gravel removal has begun south of Old Banff Coach Rd. to lower the grade to match the WCRR north of OBCR. Expected to take three months. Traffic delays to be expected.
- **Pathways:** D. Field not yet able to make contact with Bike Calgary.

WSCRCA Traffic Update:

- Nothing new to report.

Minutes of the WSCRCA Planning Committee Meeting

Tuesday, April 28th, 2020. 7:00 p.m.

SB2020-0029, 882 - 77th Street SW Subdivision application

- On April 27th, 2020, the File Manager, Vivian Barr, reported that the applicant has not yet responded to the City's first Detailed Team Review of this application.

Meeting Adjournment

The meeting was adjourned at 7:27 p.m.

Next Planning Committee Meetings:

General: May 26th, 2020, 7:00 p.m. via WEBEX video conferencing.

General: June 23rd, 2020, 7:00 p.m. via WEBEX video conferencing.

Signed by:

A handwritten signature in black ink, appearing to read "L. H. Hest", is written over a horizontal line.

Chair:

Date: May 26th, 2020

Vice Chair:

A handwritten signature in black ink, appearing to be a stylized "A", is written over a horizontal line.

Date: June 4, 2020

Re: LOC2019 - 0177 Medicine Hills

Dear Mr. Smith,

Please find below our comments regarding the land use redesignation application LOC2019-0177 from B&A Planning Group, on behalf of Trinity Development Group, for Blocks A, B, H and I in the community of Medicine Hill, Calgary.

- A. The WSCRCA supports the goal of creating a dynamic mixed-use urban environment in the Medicine Hills community. The WSCRCA does not have objections to the addition of the following discretionary uses in Blocks A & B as this "Gateway District" is in close proximity to WinSport and will help to serve the needs of clients, businesses and patrons of WinSport: Amusement Arcade, Dinner Theatre, Performing Arts Centre, Minor Vehicle Rental, and Minor Vehicle Sales. This will bring the Discretionary Uses in line with the new Mixed Use District in other areas.
- B. However, we question the addition of these new uses in the Commercial District, Cells H and I. This area has a much higher ratio of residential units and is much closer to the sensitive Paskapoo Slopes natural area. Therefore, it is important to be cognizant of the effect of larger footprint retail/commercial enterprises in Cells H and I. At the very least it must be ensured that the **Canada Olympic Park and Area ASP, section 5.8.2 (1) (d)** is strictly followed: *Large scale retail and automotive uses....may be located in the commercial District but should be located behind smaller-scale uses or otherwise screened from the commercial Main Street.*
- C. The WSCRCA is *strongly against* the addition of the Discretionary Uses of **Sign-Class F in Cell I**, and **Sign-Classe G** (Digital Third Party Advertising) in **Cells A, B, H and I** for the following reasons:
1. **Prohibited Locations for Third Party Advertising signs (Class F): Bylaw Part 3, Div. 5, 111 (6) Third Party Advertising Signs must be a minimum of 450 m from:**
(a) major parks in section 115
(d) natural area

Regarding (a), the Paskapoo Slopes Park/Natural Area is understandably not on the list of parks or significant natural areas as outlined in section 115, however, it IS a *de facto* significant park/natural area in the City. The fact that the Park Management Plan has not yet been completed does not negate the fact that eventually Paskapoo Park *will* be added to this list, and will be one of THE MAJOR NATURAL AREAS IN THE CITY (this gives strong reason for the Park Management Plan to be completed promptly in order that the Medicine Hills development can be built out in conjunction with the Plan, thus avoiding issues as stated in this letter).

With quick measurements on Google Maps it was easily determined that there are NO sites within the Commercial District cells H and I, nor in the Gateway Cell B for that matter, that are a 450 m or more from the edge of the Paskapoo Slopes Natural Area. The far NE point of Cell A could potentially qualify for a location of a Class F sign.

2. **Land Use Categories MU-1 & MU-2 do not allow third party advertising signs Class F and G:**
We have repeatedly heard through the years that the Medicine Hills development is to be a *mixed use, pedestrian oriented* community. In fact, we were informed at the PSJAC meeting on April 14th 2020, that the additional discretionary uses applied for in this application are to bring the land use IN LINE with the new Mixed Use land use categories. However, Class F and G signs ARE NOT PERMITTED in the MU-1 and MU-2 Land Use categories. It is not acceptable that the applicant considers the Gateway and Commercial Districts to be "commercial" in one situation, but "mixed used" for another. NOTE: The *COP & Area ASP section 3.0 Strategy 3.1 Guiding Principles* (one of four bullets states:) *Develop a Distinct, Compact, Mixed-Use area that contains...*

Minutes of the WSCRCA Planning Committee Meeting

Tuesday, April 28th, 2020. 7:00 p.m.

West Springs/Cougar Ridge
Community Association

1. 113 (6) Third Party Advertising Signs are prohibited in the following pedestrian-oriented areas: Bowness Rd, Kensington and Marda Loop amongst others are mentioned.

Further to point 2 above, if Medicine Hills is to be a new, major *pedestrian-oriented* area in Calgary, it should fall under the same rules as other major pedestrian-oriented areas mentioned in 113 (6). The fact that this is a new area, not yet developed, and is not an area *restructuring*, does not negate the fact that the *intention* of the ASP is to make it a pedestrian-oriented area. Likely Medicine Hills WILL BE added to this list in the future, and must therefore be developed within these rules for pedestrian-oriented areas. Class F and G signs are NOT appropriate, unless they are OUTSIDE of the pedestrian-oriented areas.

2. Size of Class F and G signs:

We also object to these sign classes on the basis that due to their size, the light pollution and imposing nature will deleteriously affect wildlife and nearby residents in Cells H & I, as well as houses along the north edge of Cougar Ridge. They are grossly inappropriate for developments near the Paskapoo Slopes natural area. F Class signs in C-COR1 (Cells A, B & H) (outside of Pedestrian-Oriented areas) are up to 4.6 m height. However, F Class signs in C-R3, Cell I, could be up to 10.5 m high. G Class signs may be up to 7 m high and 25 sq.m. In comparison, the Class E digital signs currently permitted are only a maximum of 5 sq.m. We believe it would be better to have two or three smaller digital signs sprinkled throughout the development vs one massive Class G sign.

D. Urgent need for Paskapoo Slopes Park Management Plan: Although not part of this application, the WSCRCA would like to strongly emphasize the urgent requirement for a formal *Paskapoo Slopes Park Management Plan*. It has been almost five years since the City acquired the land comprising the East Paskapoo Slopes. Since that time the use by mountain bikers, pedestrians and dog walkers has steadily increased. There are two main reasons why a Park Management Plan must be made a high priority:

1. For the reasons stated above, not having the PS Park on the official list of Parks and Natural Areas in the Bylaws during the build out of Medicine Hills, leads to decisions that would **not** otherwise be allowed if the Park WERE included in the official list.
2. Without a Park Management Plan, the Paskapoo Slopes will continue to be degraded and challenged due to over-use, mis-use and the construction of an increased number of informal trails as the "Slopes" continues to become more and more popular with Calgarians. Nefarious activities are on the rise in this natural area. The number of confrontations between bikers, pedestrians and dog walkers is increasing. The sustainability of the flora and fauna is severely threatened in some areas of the Slopes. Street parking has also increased in Cougar Ridge close to the paths leading to the Slopes as there are no designated parking areas to access the Slopes. These issues concern the local residents in our community of Cougar Ridge and West Springs. There needs to be decisions around which paths are multi-use, which are single use, and what areas are off-leash dog friendly.

In summary, the WSCRCA has no issue with the added uses of *Amusement Arcade, Dinner Theatre, Performing Arts Centre, Minor Vehicle Rental, and Minor Vehicle Sales* in Cells A & B; has reservations with the addition of these uses in Cell H; has no concerns over the addition of uses *Artist Studio, & Live Work Unit* in Cell I; has **strong objections** to the addition of *Sign-Class G* to Cells A, B & H; and **strong objections** to the addition of *Sign-Class F* and *Sign-Class G* to Cell I; and **strongly** urges the City to prioritize the Paskapoo Slopes Park Management Plan.

Regards,

Linda Nasset
